

My entire family listens to K-LOVE as our primary radio station, and if it were to be displaced by an LPFM broadcaster we would be significantly impacted. K-LOVE is one of the few stations anymore which provides programming that, in my opinion, is acceptable for the whole family. It airs positive and encouraging music, interspersed with uplifting commentary. To displace it would be eliminating a beacon of light that shines nationwide.

Please don't give LPFM priority over FM translator service.

Respectfully,

Craig Greenwood
